SUMMARY

Quality Assurance Engineer with **3+ years** of experience in **automation and manual testing** across web, API, and mobile platforms. Proven ability to design and implement **robust test automation frameworks** using **Selenium, Karate, Cucumber, and mobile automation tools** (IQP, OTFA). Strong collaborator with cross-functional teams, experienced in **defect lifecycle management**, **traceability coverage**, and **agile practices**. Adept at ensuring product quality through thorough validation and innovative testing strategies.

EXPERIENCE

Quality Engineer

IBM   **May 2023 – Present**

· Client: PNC Financial Services | Project: Zelle

· Performed **manual and automation-based API testing** to validate business-critical transactions.

· Developed mobile UI automation models using **IQP and OTFA** for iOS and Android platforms.

· Participated in **traceability reviews**, ensuring 100% requirement coverage.

· Conducted thorough **accessibility testing** for mobile UI on both iOS and Android platforms.

· Led defect tracking and lifecycle management in Jira, collaborating with global development teams.

Software Development Engineer – Test

Nuvepro   **Aug 2022 – April 2023**

· Automated web UI testing using Selenium to ensure robust functionality.

· API testing (manual) using Postman.

· Conducted end-to-end testing for multiple web applications

· Enhanced team productivity by developing reusable test scripts.

EDUCATION

B.E in Electronics and Communication

Jain College of Engineering – Belagavi · 2018-2022

CERTIFICATIONS

ISTQB Foundation Level Certification

· Earned certification from ISTQB, reflecting solid knowledge of software testing basics, including test design, defect handling, and development lifecycle concepts.

SKILLS

Functional, Regression & Insprint Testing, Test Case Design & Execution, Defect Reporting & Tracking, Agile & Scrum Methodology, Test Planning & Documentation

Tools: Selenium, Postman, Karate, IQP, OTFA, Saucelabs, IntelliJ, Cucumber, Jira
